Cabbage Plants

Important to Growers of Early CABBAGE.

A Crop of CABBAGE Produced Ten Days to Two Weeks Earlier than you are
Now Producing yours, Would Make You Double the Profit.

By using our **Hardy Frost-Proof Cabbage Plants** you can mature a crop of Cabbage ten days or two weeks earlier than they can be grown from plants raised in hot-beds and cold frames, for the reason that our Hardy Frost Proof Cabbage Plants can be set in the field before danger of frost and freezes is past. [This can not be done with cold frame plants.] They become rooted and established while the land is still cold, and as soon as spring weather opens up the established root growth assimilates the fertilizer, the plants grow off rapidly and mature a head cabbage from ten days to two weeks earlier than your earliest cold frame plants.

Small

Plants grown in interior, away from the Islands and salt air will not do to risk for Early planting.

We can fill orders any time from Dec. 1st to April 15th.

Varieties---Early Jersey Wakefield, Charleston Large Type Wakefield, Succession and Short-stemmed Late Flat Dutch.

Price---F. O. B. Express Office, Young's Island, S. C.,---Lots of 1000 to 5000, \$1.25 per m, 5000 to 9000, \$1.15 per m., 10000 and over, \$1.00 per m. Plants are packed in cases holding either 500, 1000 or 2000 plants to case. Order in these quantities. Five hundred plants are sold at 1000 rate. Ready from December to April.

BEARS THE FIRST SEASON

Plants of St. Regis planted in early April gave ripe berries on the 20th of June of the same year. For four weeks thereafter the yield was heavy and the canes continued to produce ripe fruit freely without intermission until the middle of October. The berries were large and beautiful, firm and full flavored, to the very last.

St. Regis is the only Raspberry, thus far known, that will yield a crop of fruit the season planted.

Awarded a certificate of merit by the AMERICAN INSTITUTE of New York.

Price of Plants: 1 Plant 25c; 3 Plants 50c; 12 Plants \$1.00; 100 to 500 Plants 6c per plant; 500 to 1000 Plants 3½c per Plant.
